Extreme hot weather is a great tax on the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. Constipated Bowels.

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main St., Wichita Kansas, writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." 50c at Arcadia Valley Drug Co.

The Kind You Have Always Bought Bears the Signature of 

LIVER TROUBLES

"I find Theford's Black-Draught a good medicine for liver disease. It cured my son after he had spent \$100 with doctors. It is all the medicine I take."—MRS. CAROLINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Theford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Theford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Theford's Black-Draught should always be kept in the house.

"I used Theford's Black-Draught for liver and kidney complaints and found nothing to equal it."—WILLIAM COFFMAN, Marblehead, Ill.

A Few Facts Concerning

Rupture

In order to become proficient in the cure of rupture, years of preparation and experience are necessary in order to practice with any degree of certainty. Dr. W. A. Lewin, the rupture specialist, is a graduate of several European and American colleges and has devoted many years to the study of this particular branch of medical science.

He treats rupture without the use of the knife, without drawing blood, without danger and without detention from regular occupation.

All is accomplished within a few weeks and no one is pronounced cured until the opening through which the intestines protrude is entirely closed and permanently healed. This is done by building up new tissue, a growth similar to that over a wound that has healed, so that the patient is stronger at this spot than he was before the rupture occurred.

Consultation and advice free. No pay required until cured to your entire satisfaction. Send for free booklet containing testimonials. 10,000 patients cured. Call or address,
